DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the phrase “the controller being connected to all components above” is unclear because it is unclear as to which components it is referred to. Applicant’s representative is required to include all such components explicitly for clarity.

As to claims 2-7, they are also rejected for incorporating the deficiencies of their base claim.

Claim Objections

Claim 6 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 5 is dependent on

claim 1 and claim 4 is dependent on claim 1 whereas claim 6 is dependent on claim 4 with the same limitations of claim of claim 5.
